Hello sir,

As we discussed last week, i request the "Hackers day" team to organize workshop in Geethanjali. The workshop is divided into two scheduled days. For the first day our alumini and his colleagues will take the session and they will cover the basics of the Cyber security. I think these topics will covers the few subjects for final year students. Based on the availability we will request speakers to attend this workshop as speakers will be attended for next scheduled days.

Please let me know the if any. So that we will plan the further action.

Regards

Pratap

Hi Pratap.

As discussed earlier,we decided to Conduct a 2 days Workshop in Geethanjali College in the month of April.We are planning to have 3-5 speakers working in various fields of Information Security depending up on their availability .Before going that we are planning to conduct a one day workshop in this month(March) on Web Application Vulnerability Assessment and Penetration Testing which is useful for Subjects such as Security Auditing,Hack Proofing,Information Security etc.Based upon interest,feedback from students we will confirm the dates for 2 days workshop after checking availability with Speakers. This training session will be handled by me.Please confirm any of the date(March 18/March 20).I can handle 150-200 students in this session.

Whom we are?

Hackers Day is an Open Non-Profitable Information Security community for promoting, demonstrating & spreading awareness regarding the field of Information Security. The main motive to establish this community is to establish a platform for talented security researchers to showcase their skills & to spread awareness about the real insights of Hacking and Security. Hackers Day is a unique event, where the best brains in information security and leaders in hacking world and the cyber society along with government officials on cyber security meet to join their efforts offensively or defensively to cooperate in addressing the most assessed topics in the field of Information Security. This community seeks to bring together the brightest mind within the information security industry and the digital underground. Hackers Day will showcase cutting edge tools, techniques and methodologies that are at the forefront of the global threat landscape. The annual Hackers Day conference is a platform for security analysts, ethical hackers, professionals, business men and students to present their technical knowledge and to showcase their skills. Hackers Day International Information Security Conference is a stepping stone for young professionals, information

security enthusiasts, hackers, coders, programmers, security and networking professionals, web developers, government officials, law enforcement agencies, business and everyone who love and care about security. As an open community, Hackers Day also provides Regional Chapters to conduct regular semi-conferences/meets which will spread and aware people about latest security threats, technologies and to share knowledge.

What we charge?

We are not the people/org like others to earn money by conducting workshops and making a business in it. We are the one to create cyber Security awareness in various domains, provide national level training's and conduct workshops for FREE especially to students and IT Professionals.

What are the topics we are going to deliver in session of 6 hours?

1. Introduction to hackers day and some of vulnerabilities that identified and reported in Facebook, Google Drive (any file editor, zip extractor), and some other major websites.
2. Different Domains in information Security and Penetration Testing.
3. Introduction to Web Security, Vulnerability Assessment, Web Application pen testing, Security Auditing and Risk Assessment.
4. Introduction to various Web Application Pen testing tools and how to use them (2 Automates Scanners + 2 Manual tools)
5. Brief description to Burp Suite and OWASP ZAP. (Practical) and bypassing client side and server side code validation.
6. Introduction to Virtualization and installing OS in it.
7. Installing and using android device in virtualization environment using Virtual box and Geny Motion.
8. How hackers use basic programs like Brute Force, Buffer overflow, str_replace concept and some others programs used in C/C++ lab in real time. (practical)
9. Introduction to Servers => Web Application Servers => databases => tables => columns => rows etc for better understanding of database structure.
10. Detail explanation of OWASP TOP 10 vulnerabilities. (Practical and poc Videos)
 - A1 Injection (SQL Injections, PHP web Shells).
 - A2 Broken Authentication and Session Management (SS)
 - A3 Cross Site Scripting (SS)
 - A4 Insecure Direct Object References
 - A5 Security Misconfiguration
 - A6 Sensitive Data Exposure
 - A7 Missing Function Level Access Control
 - A8 Cross Site Request Forgery (CSRF)
 - A9 Using Components with Known Vulnerabilities
 - A10 Unvalidated Redirects and Forwards and also
 - A11 User Privilege Escalation
 - A12 Art of Hacking with inspect elements and source code review.
12. How developers can fix these vulnerabilities at coding level.
13. Introduction to Web Application Firewall and how to bypass those firewalls.
14. How to learn programming in easy way.
15. How to learn coding easily by using Reverse Engineering Technique.
16. Using google Authentication and enabling Offline OTP for Facebook, gmail etc.
17. Hacking Android Device and getting control of Camera, Messages, Contact List and controlling device remotely.
18. Decompiling Android apk's and reconstructing it.
19. Introduction to Pro-guard obfuscation for securing android applications.
20. Secure Web Coding.

What will students learn by the end of the day?

- * Various domains in information Security.
- * Security Auditing & Information Security Subject.
- * Vulnerability Assessment and Penetration Testing.
- * Hackers tools and mindset.
- * Database architecture and how it is used in real time web applications.
- * OWASP TOP 10 Vulnerabilities and how hackers can exploit and misuse them.
- * Fixing the Vulnerabilities and awareness about Secure programming.

To whom so ever concerned

This is to certify that O. harika, Y.harika and Balachaitanya for MBA second year of Geethanjali College of Engineering and Technology paid a visit along with the rest of the students in their class. these three students have Shown keen interest in our firm which is into JUTE BAG manufacturing. They have taken the trip beyond and worked Over a fortnight in understanding the hurdles in this tiny segment. Their suggestions to improve the segment were Found to be feasible and well meaning. Hence we would like to certify that these three candidates have done their Mini project with us from 29 Sept 16 to 15 Oct 16. Topic of their study was "Scope for increasing Market Share for jute products through Online Marketing"

We wish them All the Best for all their future endeavours.

Regards.

Dear Madam,

Geethanjali College of Engineering,.

Respected Madam,

Subj: Invitation for Young India Challenge-Students Participation from your esteemed Institution.

The need of the hour today is to stay on track with the competition in the world and bettering ourselves for it, at every stage. Driven by the ever changing needs of today and being instrumental in shaping the future of the country, we at Career Launcher bring to your students a unique challenge, This will see them compete in one of the biggest contests nationally.

The CL, Young India Challenge is a country wide, innovative challenge where the student of your college will be tested against other enterprising youngsters from the country. It is open to all undergraduate students who are currently pursuing their graduation. This challenge would help them hone their skills, test their creativity and compete against the best in the country.

Every participant can look at this challenge as a platform and an opportunity to compete, grow and thus become a youth icon.

The winner of the previous seasons gained mentorship from leading industry stalwarts, this year too, the winner would stand to gain immensely and thus take a giant leap towards a successful career, through mentorships and numerous other accolades.

We invite the students from your esteemed institution to come and be part of this challenge, exploring and unleashing their true potential.

Following are the rounds to be participated by the students,

About Entrepreneurship Development Cell
JNTUH

Entrepreneurship Development Cell (EDC) at **Jawaharlal Nehru Technological University Hyderabad, Hyderabad (JNTUH)**, formerly known as **Jawaharlal Nehru Technological University, Hyderabad**, was established in February, 2002 with the support from the Department of Science and Technology (DST), Govt. of India, New Delhi and promoted by JNTUH.

The Government of India has identified 'Entrepreneurship' as one of the principal mechanisms for the mitigation of Unemployment and Under-employment amongst Science & Technology Graduates in the country today. National Science and Technology Entrepreneurship Development Board (NSTEDB), set up in 1982 under the DST, felt that the EDCs, now known as Innovation & Entrepreneurship Development Cells (IEDCs), created in the Educational Institutions would not only would help in strengthening Industry-Institute Interaction, but also promote Entrepreneurial Culture in Technical Institutions and Institutes of Higher Learning. In order to make optimal use of Facilities, Expertise and know-how available in the Technical Institutions for the benefit of the society, it has been necessary that appropriate links are established between Institutions and the Industry. Special emphasis has been laid on Entrepreneurship and Self-Employment, keeping in view the present mandate of Trained Manpower that graduate out of Technical Institutions.
