## **REPORT ON STANDARDLESS QUANTITATIVE ANALYSIS IN THE PHARMACEUTICAL SPACE**

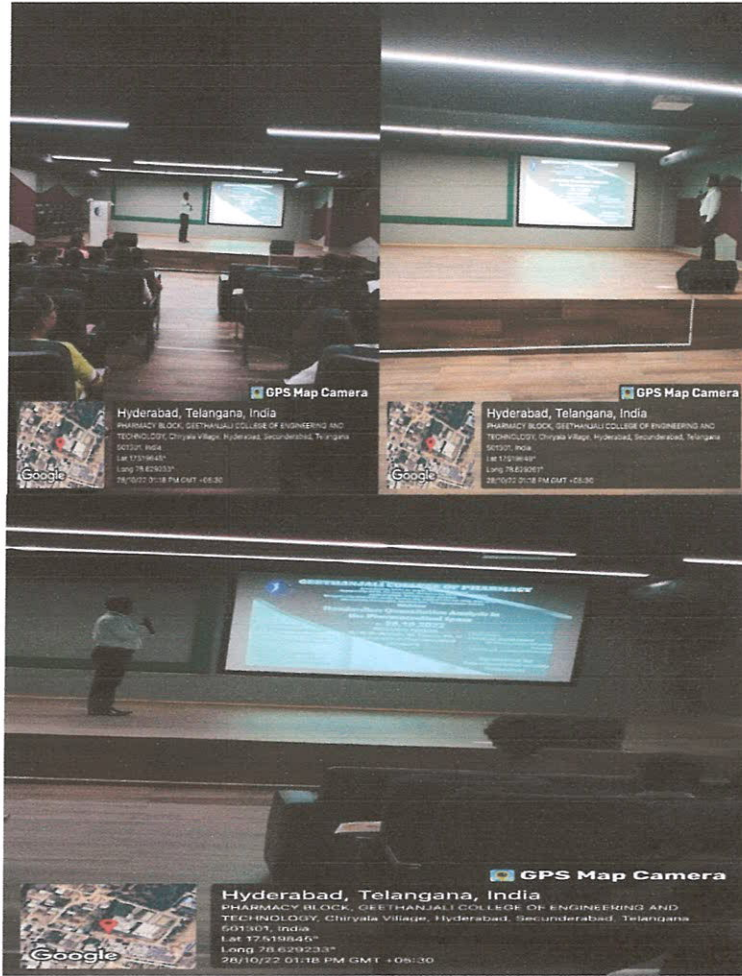

**Name of the programme: Standardless Quantitative Analysis in the Pharmaceutical Space**

**Resource Person:** Dr. R. Sivakumar,

M. Pharm, Ph. D

Department of Pharmaceutical chemistry

A seminar on Standardless Quantitative Analysis in the Pharmaceutical Space was organized by Geethanjali college of pharmacy on 28/10/2022. Prof. Dr. R. Sivakumar was the resource person. He gave a brief introduction on Research methodology on Documentation and regulatory writing. The session was handled by Prof. Dr. P. Neeraja, M. Pharm., Ph. D, HoD, Department of pharmaceuticals. The seminar proved to be an insightful forum for discussion from the most important perspective, that of the user, standardless analysis is any method that provides a quantitative composition from EDS data without the need for the user to standardise. That means not needing to keep and maintain a set of certified standards for different elements that are used to standardise the analysis of each element requiring quantification. It also means a system will be able to provide quant results right from the point of installation, straight out of the box.

### REPORT ON ENTREPRENEURSHIP IN INDIA: INCREASING DIVERSITY

**Name of the Programme:** Entrepreneurship in India: Increasing diversity

**Resource Person:** Prof. Dr. P. Neeraja

M. Pharm., Ph. D, HoD

Department of pharmaceutics

A webinar on Entrepreneurship in India was organized by Geethanjali college of pharmacy on 06/06/2022. Prof. Dr. P. Neeraja was the resource person. He gave a brief introduction on Entrepreneurship in India: Increasing diversity. The session was handled by Dr. R. Nagakishore (Faculty of Pharmaceutics Department, Geethanjali College of Pharmacy).

The webinar proved to be an insightful forum for discussion of Entrepreneurship in India and its increasing diversity. This seminar strengthens the arguments with a brief literature rationale, which is informed by research experience. One of the key advantages of acknowledging heterogeneity is that it can help scholars to convert any frustrations that is caused by not having common understanding to a fascination to embrace the wholeness of the phenomenon. Our understanding of how to appreciate diversity and inclusion is limited; as a solution, we encourage critical debates among multiple actors of entrepreneurship and urge to widen research adopting more innovative and creative approaches.
