REPORT ON WEBINAR ON CURRENT ISSUES IN INTELLECTUAL PROPERTY RIGHTS IN INDIA

Name of the programme: Webinar on Current issues in Intellectual Property Rights in India

Resource Person: Prof. Dr. M. Ravi Kumar

Principal

Geethanjali College of Pharmacy

A webinar on IPR was organized by Geethanjali college of pharmacy on 03/12/2021. Prof. Dr. M. Ravi Kumar was the resource person. He gave a brief introduction on IPR and explained the various related terms and current issues Intellectual Property Rights in India. The session was handled by Dr. R. Sivakumar (Faculty of chemistry Department, Geethanjali College of Pharmacy).

The webinar proved to be an insightful forum for discussion of IP developments and their application in India. The current issues in Intellectual Property Rights in India are mostly related to the agriculture. The present study is an attempt to analyses the overview and impact of intellectual property rights on agricultural innovation in India. This paper examines the patenting activity to identify current innovations in crop farming in India. In the case of granted patents, majority of the patents belong to the area of plant growth. It explores the specificities of patent portfolios and its scope of future innovations in the agriculture engineering sector. The legal mechanisms of patents, copyrights, trade secrets and trademarks are used to protect such intangible property. A basic understanding of these mechanisms is essential for anyone whose research may lead to an invention, and for research administrators who must deal with intellectual property issues, both for acquisition and deployment.

REPORT ON SEMINAR ON RESEARCH METHODOLOGY ON EPIDEMIOLOGICAL STUDIES

Name of the programme: Research methodology seminar on Epidemiological studies

Resource Person: Prof. Dr. Bharath Bhushan Mohapatra

M. Pharm., Ph. D,

Department of Pharmacology

A seminar on Research Methodology was organized by Geethanjali college of pharmacy on 15/09/2021. Prof. Dr. M. Ravi Kumar was the resource person. He gave a brief introduction on research methodology and explained the various aspects related to epidemiological studies. The session was handled by Dr. R. Sivakumar (Faculty of chemistry Department, Geethanjali College of Pharmacy).

The seminar proved to be an insightful forum for discussion of Research methodology seminar on Epidemiological studies. The purpose of epidemiology is to understand what risk factors are associated with a specific disease, and how disease can be prevented in groups of individuals; due to the observational nature of epidemiology, it cannot provide answers to what caused a disease to a specific individual. Epidemiologic studies can be used for many reasons, commonly to estimate the frequency of a disease and find associations suggesting potential causes of a disease. To achieve these goals, measures of disease (incidence) or death (mortality) are made within population groups. Epidemiology is fundamentally multidisciplinary and it uses knowledge from biology, sociology, statistics, and other fields.

Webinar on Intellectual Property Rights (IPR)

A webinar on IPR was organised by Geethanjali college of pharmacy on April 7th 2021. Dr. P. Karthigeyan was the resource person. He gave a brief introduction on IPR and explained the various related terms such as copyrights, patents etc. The session was handled by Dr. R. Sivakumar (Faculty of chemistry Department, Geethanjali College of Pharmacy). A briefing on the session is given below.

Introduction

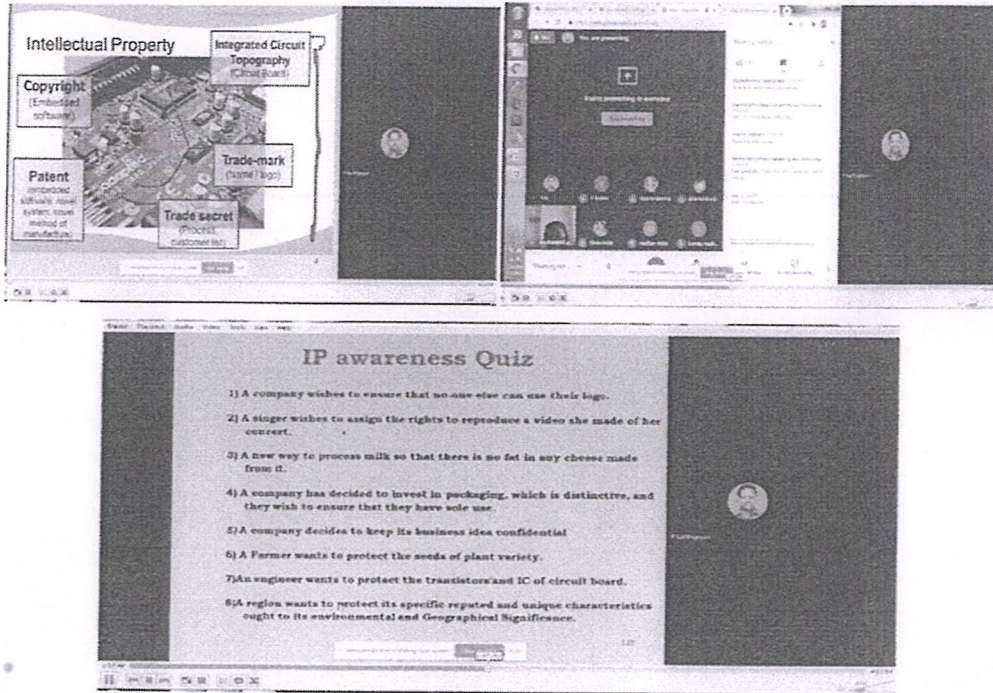

Intellectual property is a category of property that includes intangible creations of the human intellect, and primarily encompasses copyrights, patents, and trademarks. It also includes other types of rights, such as trade secrets, publicity rights, moral rights, and rights against unfair competition. Artistic works like music and literature, as well as some discoveries, inventions, words, phrases, symbols, and designs can all be protected as intellectual property.

The main purpose of intellectual property law is to encourage the creation of a wide variety of intellectual goods. Intellectual property rights refer to the general term for the assignment of property rights through patents, copyrights and trademarks. These property rights allow the holder to exercise a monopoly on the use of the item for a specified period.

It created a great impact on the entire audience. Students were taught on how IPR restricts copying others' ideas and how this will help the development of new ideas for the

betterment of the society. Students learnt how IPR provides total control over a new innovation and its creator. They were also given a platform to discuss how small innovations influence societies at large and how they should indulge in innovating and patenting ideas that will be useful for all the classes of individuals in the society.

REPORT ON ENTREPRENEURSHIP IN INDIA: IT'S CURRENT AND FUTURE IMPACT ON COMPETITIVENESS

Name of the Programme: Entrepreneurship in India: It's Current and Future Impact on Competitiveness

Resource Person: Prof. Dr. R. Sivakumar

M. Pharm., Ph. D,

Department of pharmaceutical chemistry

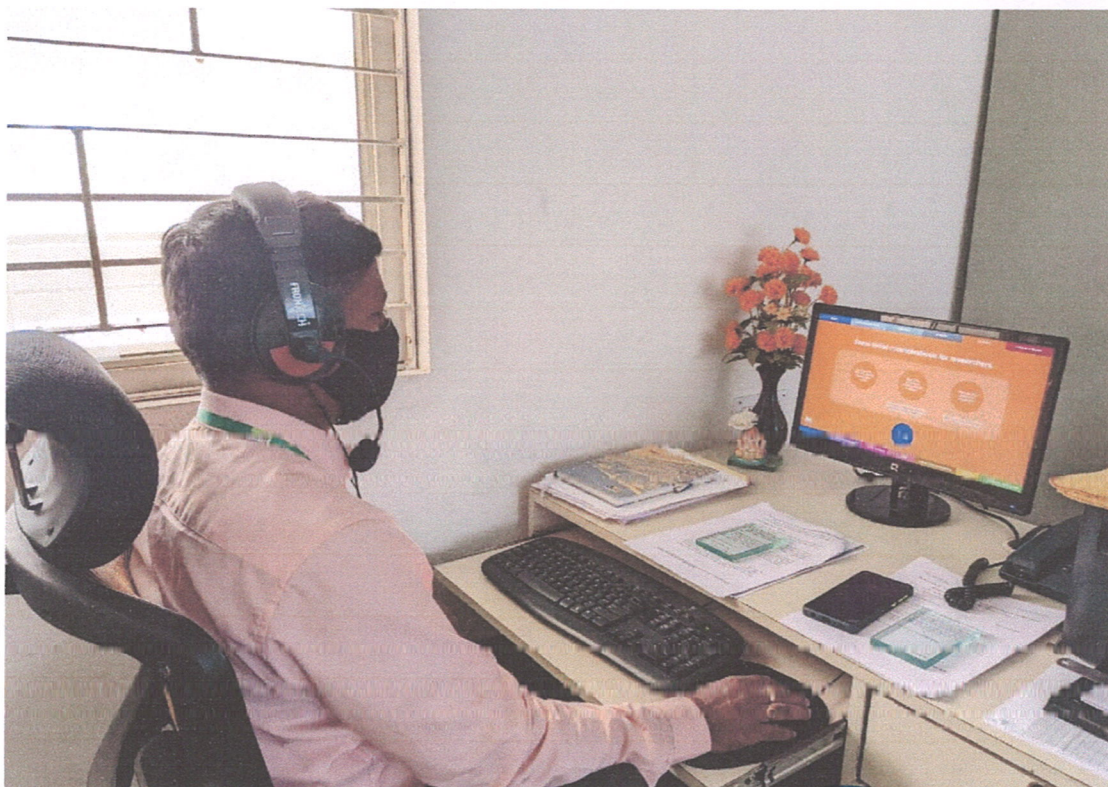

A webinar on Entrepreneurship in India was organized by Geethanjali college of pharmacy on 08/02/2021. Prof. Dr. M. Ravi Kumar and Prof. Dr. R. Sivakumar was the resource person. He gave a brief introduction on Entrepreneurship in India: It's Current and Future Impact on Competitiveness. The session was handled by Dr. R. Sivakumar (Faculty of chemistry Department, Geethanjali College of Pharmacy).

The webinar proved to be an insightful forum for discussion of Entrepreneurship in India and its current impact on competitiveness. The main problems faced by an entrepreneur were lack of mentoring facilities, technology support or easy availability of credit. Entrepreneurship in India has been confined to being own-account workers with one or more helpers and did not expand in size beyond that. Self-employed entrepreneurs need training of the multi-skill variety, going beyond production skills to include marketing, finance and accounting and elementary management.
