The workshop on “Role of Educational Universities in Fostering Entrepreneurship” conducted by Geethanjali College of Pharmacy, workshop scheduled on 03/01/2020. The location of the event is Geethanjali College of Pharmacy, Seminar Hall, Block No-I.

The main objective of the workshop is to keep informed the students, Entrepreneurship is extremely important for any economy, for its ability to make a significant impact on citizens and nations as a whole. Great entrepreneurs can change the way we live and work, by creating jobs and wealth, with changes varying between social impact to immense innovations. Since education is essential to enhance the thinking abilities and as entrepreneurship ecosystem is developed by the interplay of actors like universities, government and entrepreneurs themselves, universities become the hotbed of fostering the required entrepreneurial environment.

### **RESEARCH METHODOLOGY SEMINAR ON REVIEW OF LITERATURE**

**Name of the programme:** Research Methodology Seminar on Review of Literature

**Resource Person:** Prof. Dr. Bharath Bhushan Mohapatra.

Department of Pharmacology

Geethanjali College of Pharmacy

The seminar on "Research Methodology Seminar on Review of Literature" conducted by Geethanjali College of Pharmacy, seminar scheduled on 27.06.2019. The location of the event is Geethanjali College of Pharmacy, Seminar Hall.

The main objective of the seminar is to keep informed the students; A literature review in its most comprehensive form includes a synthesis of quantitative findings stemming from quantitative research studies and qualitative findings stemming from qualitative research studies. Synthesizing both quantitative and qualitative findings within the same literature review automatically renders the literature review process as a mixed research study. Before the literature review begins, the literature reviewer must determine whether the goal of the literature review is as an end in itself or as a study to inform primary research. If the goal is as an end in itself, then the Seven-Step Model will only be used to generate the literature review report. However, if the goal of the literature review is to inform primary research, then the literature reviewer should undertake a series of literature reviews, as needed, throughout the conduct of the primary research.
