M. Pharm., Ph. D,

Department of Pharmacology

The seminar on “Research Methodology on Quantitative and Qualitative Research” conducted by Geethanjali College of Pharmacy, seminar scheduled on 23.01.2019. The location of the event is Geethanjali College of Pharmacy, Seminar Hall.

The main objective of the seminar is to keep informed the students; It is important to be able to identify and understand the research approach underlying any given study because the selection of a research approach influences the questions asked, the methods chosen, the statistical analyses used, the inferences made, and the ultimate goal of the research. Although some research may incorporate both quantitative and qualitative methodologies, in their ‘pure’ form there are significant differences in the assumptions underlying these approaches, as well as in the data collection and analysis procedures used.
