The Social and Technical Context of Health Informatics

Leading Change in Health Informatics

The Outcomes and Interventions of Health Informatics

The Data Science of Health Informatics

Culminating Project in Health Informatics

Oct 23, 2020

R Naga Kishore

has successfully completed the online, non-credit Specialization .

Health Informatics

In this Specialization, learners explored the social and technical context of health informatics problems; discovered how to successfully implement health informatics interventions, designed a health informatics solution for decision support, and answered a health informatics problem through data retrieval and analysis.

Fundamentals of Immunology: T
Cells and Signaling

Fundamentals of Immunology:
Death by Friendly Fire

24.09.2020

R Naga Kishore

has successfully completed the online, non-credit Specialization

Fundamentals of Immunology

This Specialization equipped learners with the basic concepts and vocabulary of immunology. Learners were given a fundamental understanding of immunology and the ability to appreciate and analyze new developments in immunological therapies designed for the treatment of disease.

The online specialization named in the certificate may draw its material from courses taught elsewhere, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at the university. This certificate does not confer a university degree, diploma or diploma and does not verify the quality of the learner.

Sep 15, 2020

R Naga Kishore

has successfully completed the online, non-credit Specialization

Anatomy: Musculoskeletal and Integumentary Systems

Anatomy: Cardiovascular, Respiratory and Urinary Systems

Anatomy: Human Neuroanatomy

Anatomy: Gastrointestinal, Reproductive and Endocrine Systems

Anatomy

In this Specialization you will explore human anatomy using a systems approach, and a vast library of multimedia materials, so you may understand the features of different organ systems in relation to the human body's form and function. This Specialization covers the following organ systems: Integumentary System Musculoskeletal System Cardiovascular System Respiratory System Urinary System Nervous System Gastrointestinal System Reproductive System Endocrine System This Specialization takes advantage of a highly visual multimedia library of accurate anatomical models and materials to help you better understand the topics.
