## ***Vision of the department***

The Civil Engineering Department is committed to excellence, quality, and sustained growth while offering our students an outstanding and rigorous education in an environment that supports intellectual growth while meeting 21st century demands.

## ***Mission of the department***

1. To provide high-quality educational experience for students in the field of Civil Engineering with strong emphasis on professional ethics, social and environmental responsibilities.
2. To provide infrastructure and facilities to meet the latest technological requirements.
3. To provide research opportunities for faculty and students.
4. To have a continuous interaction with Industry with an emphasis on R and D.
5. To produce engineers capable of critical thinking, devoted to lifelong learning, and highly sought after by employers.

## ***Program Educational Objectives (PEOs)***

Program Educational Objectives (PEOs) are broad statements that describe the career and professional accomplishments that the program is preparing the graduates to achieve within three to five years of graduation. The PEOs for Civil Engineering program are:

**PEO 1:** Graduates will be technically adept in mathematical, scientific, and engineering fundamentals to pursue their chosen profession or pursue advanced studies with a commitment to lifelong learning for professional development.

**PEO 2:** Graduates will be able to apply problem-solving skills to various engineering problems that involve management of medium-sized projects to large-scale projects using modern equipment or systems, and work on multidisciplinary projects in multicultural environment demonstrating interpersonal skills.

**PEO 3:** Graduates will exhibit creativity, innovation, and professional ethics with leadership qualities towards societal development.

## ***Program Specific Outcomes (PSOs)***

**PSO 1:** Apply knowledge in core areas of Civil Engineering such as Structural, Geotechnical, Water Resources, Transportation and Environmental Engineering to Civil Engineering practice.

**PSO 2:** Utilize Civil Engineering principles that are appropriate to produce detailed drawings, design reports, quantity and cost estimates, specifications, contracts and other documents appropriate for the design, construction, operations and maintenance of Civil Engineering projects.

**PSO 3:** Shall interact and collaborate with stakeholders; execute quality construction works applying Civil Engineering tools namely, Total Station, Global Positioning System (GPS), ArcGIS, AutoCAD, STAAD and other necessary tools.

**NIRMAAN** (JUN 2016 – NOV 2016) NEWSLETTER

**DEPARTMENT OF CIVIL ENGINEERING**  
 Message from Head of the Department (HOD)

It has been a great pleasure bringing out our newsletter "NIRMAAN" for the first time since the inception of the department in 2014-15. By virtue of its nature a civil engineering course equips the students with several highly desirable qualities and skills which make them employable. However, in the contemporary highly competitive scenario, specialized training in emerging technologies of all the major civil engineering disciplines based on the needs of the industry has become an essential co-curricular activity. Apart from this, students should be equipped with the required soft skills and interpersonal skills. The ultimate goal of the present time is to inculcate an attitude of professionalism in the students and infuse in them a desire to learn further thus encouraging a life-long learning process in their minds.

With this note we bring you our Newsletter NIRMAAN!!!

**NEWSLETTER**  
 Volume 1, Issue 1, 2017-2018

**Chairman's Message**  
 I congratulate the Department of Civil Engineering for publishing the newsletter which represents the diverse activities that are being completed in the first part of Academic Year 2017-18. I feel that representing the students and faculty for their active participation and organization of various activities will impact positively on the Department's activities.

**Principal's Message**  
 It is very much pleased to know that Department of Civil Engineering, CEET is coming out with one more edition of newsletter. This serves as a good platform for students and staff to project their achievements and self-achievement. I hope all the students and staff members are participating with full enthusiasm in this venture. We will provide periodic quality education by equipping our students with skills, confidence and a positive approach with self-actual development. I wish all success and congratulations to the HOD, staff and students who have contributed to this valuable time and effort put in for preparing this edition of department newsletter.

**HOD's Message**  
 It gives me great pleasure to know that one more edition of Department Newsletter is ready to be distributed to the members of the Department. This is to inform, the newsletter gives an insight of the departmental activities and achievements of students and faculty by the students. It helps in a regular evaluation and encouragement for the people of entire department to demonstrate their skills before and bring them to the department by participating and contributing towards various activities. I appreciate the editorial team for their hard work that they have invested in releasing this Newsletter. I wish good luck and success to all the students and faculty.

**PRAGATHI**  
 Volume 4, Issue 1, July - December 2019

Message from Head of the Department  
 I am very happy to bring out the first issue of Department Newsletter "PRAGATHI" for the year 2019. The editorial board comprises the students and faculty members who have been active during the period of last year. 2018-19 and their work has been very commendable. I continue to be inspired by the spirit of the students and faculty in their contribution to the activities of the department. I wish good luck and success to all the students and faculty who have contributed to this valuable time and effort put in for preparing this edition of department newsletter.
