Report on Conduction of Guest Lecture

The Department of pharmacy had successfully conducted a guest lecture on “**Overseas Education**” by Mr. Srinivas and Mr. Nagaraju, from i20 fever (International Education Consulting Company) organized in association with the **Career Guidance Cell** of **GCPK** on 21st June 2023 in our college seminar hall at Geethanjali College of Pharmacy.

In welcome speech, Prof M. Ravi Kumar, Principal, Geethanjali college of pharmacy expressed his word of gratitude to the guest of honor Mr. Srinivas and Mr. Nagaraju, i20 fever (International Education Consulting Company) and addressed students regarding the content of the lecture. The guests were felicitated with a flower pot.

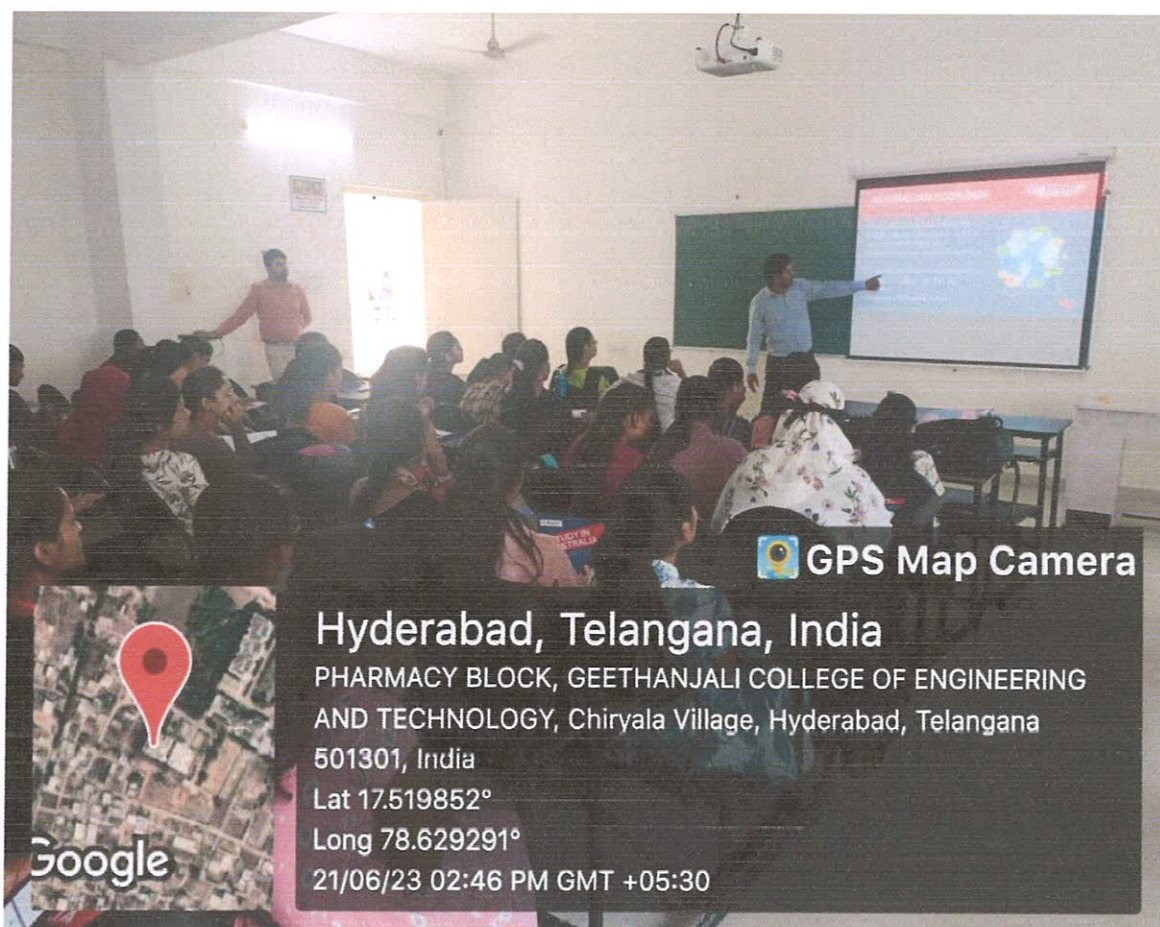

The Guest Lecturer gave a brief note on higher education opportunities in Australia. It is one of the most preferred destinations for education among Indian students, not only because of its world recognized qualifications but also due to the quality of education offered with research and the post masters opportunities available for students.

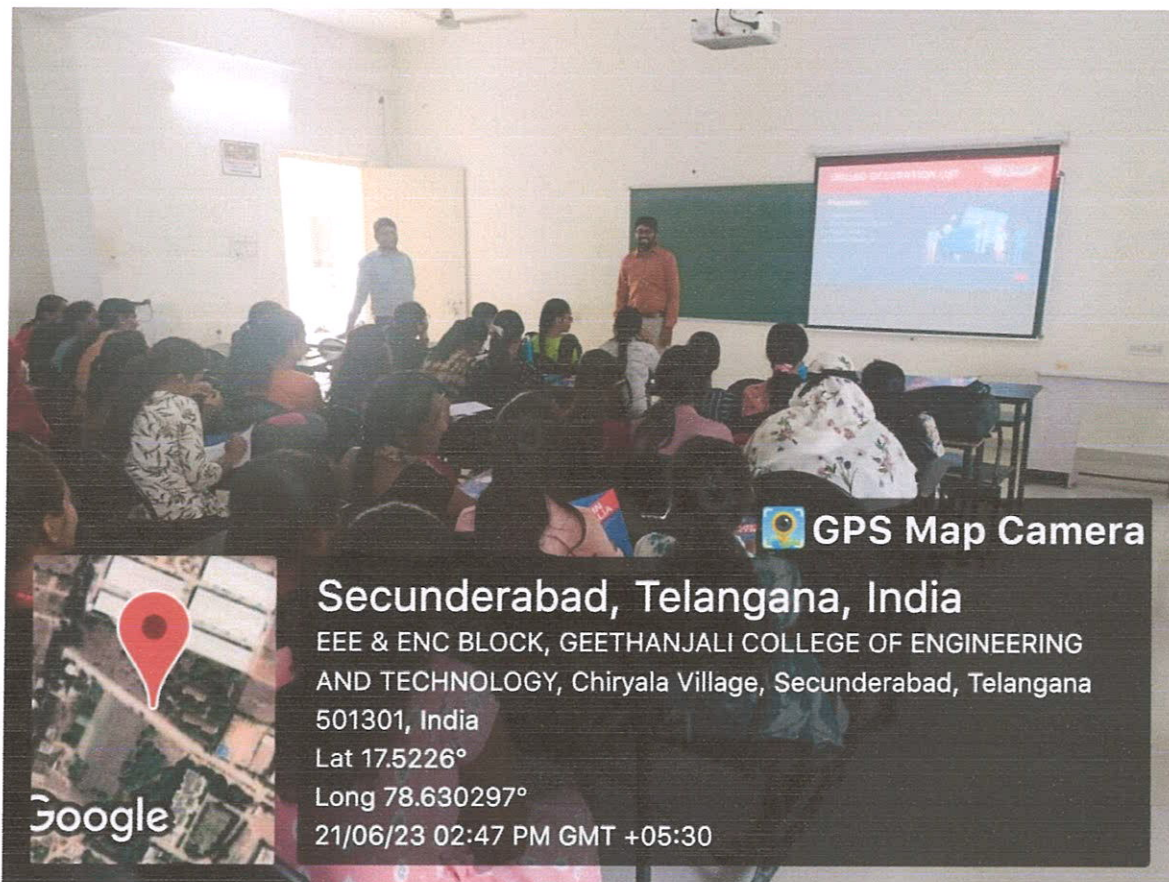

Seven Australian universities feature among the world's best in the latest QS World University Rankings. While seven universities are in the global top 100, another 10 are in the top 300. Five Australian institutions claimed a place among the top 25 places in the Times Higher Education ranking of the international universities. Emphasis on Scientific research by Australian Universities is one major factor which made most of the universities get into the top QS World rankings, which is one of the major factors which attracts a large number of international students.

Australia has an integrated education system, which seamlessly connects primary, secondary, tertiary (or as we say higher) education and vocational opportunities. This system enables students to move from one stage to the other without feeling at sea. The cornerstone of the education system is the “Australian Qualification Framework (AQF)”, which is the national policy for regulated qualifications in Australian education and training. Given AQF’s reputation, Australian degrees are recognized across the world. With fewer universities in the country, Australian Government has complete control over the universities.

Besides, the Education Services for Overseas Students (ESOS) framework protects the rights of international students studying in Australia, including your right to receive, before enrolling, current and accurate information about the courses, fees, modes of study, and other information from your institution and your institution’s agent.

It was an interactive session between the students and the Guest Lecturer. Students clarified their doubts regarding higher studies and the job opportunities in the same field. He then concluded his talk by advising the students to plan for a smaller yet complete methodology and attaining proper skills in the same. Over all program of guest lecture went on smoothly and got good responses from students.

The content covered was beneficial for the students and faculty by imparting the knowledge of various career opportunities and challenges a pharmacist has to face in order to be successful in his career.
